CERTIFICATE IV IN SECURITY RISK ANALYSIS

This qualification is for security risk analysts who apply technical security and operations expertise in a risk management environment. Security risk analysts understand the current threat environment and assess risk and advise clients on strategies to ensure the protection of electronic security systems and people and property in crowded places, as defined by *Australia's Strategy for Protecting Crowded Places from Terrorism (2017)*.

This qualification provides occupational specialisations in electronic security and crowded places, and a pathway to further learning and work in security risk management.

Legislative, regulatory or certification requirements apply in some states and territories to the provision of advice on security solutions, strategies, protocols and procedures. For further information, check with the relevant regulatory authority.
